2024 Fall Board Meeting

NAHAD's Board of Directors met last weekend for the association's Fall Board of Directors Meeting in Hilton Head, SC. During the meeting, new initiatives were discussed that centered around the association's evolving needs of its membership in today's industry and climate. The board focused on key topics that included NAHAD's new Leadership Training Program, public policy information to help NAHAD member companies navigate the business landscape in 2025, as well as the future of HSI Reimagined as an industry designation. Look for more information to come, as well as a new membership dues structure, the slate of 2025 board candidates, a new website, and much more as we look ahead to next year and beyond.

Update Your NAHAD Logo

NAHAD The Association for
Hose and Accessories
Distribution

Soon to come will be a completely redesigned NAHAD website, with updated images and content that match the vision of our logo. The latest graphics that feature our new logo for events, promotion and education are coming to you soon, so make sure to stay connected with NAHAD on [social media](#).

If your website includes the NAHAD logo, please update it with our [new version](#). For additional versions of the new logo, contact us at info@nahad.org.

Custom Industrial Hose: What To Do When A Stock Option Won't Do

Thursday, December 5, 2024

3:00 pm - 4:00 pm ET

Join NAHAD next week to hear panelists dive into the biggest opportunities in the custom industrial hose industry, including insights into gaining new market share and better servicing current customers. Attendees will hear about niche applications for industrial hose, custom considerations (e.g., precise OD, built-in ends, etc.), and how a specialty industrial hose option can both increase safety and decrease failure in the field. Panelists will touch upon specific hand-built industrial hose uses, what to expect when working with a custom industrial hose manufacturer, and what to do if your customer doesn't know what they need.

Moderator:

Katlyn Ricciardo, Premier Industrial Hose Manufacturing Ltd.

Panelists:

Skip Anderson, Salem Republic Rubber Company

Rich Balka, Home Rubber Company

Scott Harrington, Premier Industrial Hose Manufacturing Ltd

Penflex Receives CRN Approval for Metal Hose Assemblies Used in Turnaround Projects

Penflex Corporation, a leader in flexible piping solutions, has received Canadian Registration Number (CRN) approval from the Alberta Boilers Safety Association (ABSA) for its popular line of made-to-stock metal hose assemblies.

A CRN is issued in each province or territory in Canada by an authorized safety authority for any boiler, pressure vessel or fitting that operates at a pressure greater than 15 psig, or 1 barg. The unique identifier signifies that the design has been accepted and registered for use in that province or territory. [Read more](#)

XTM-DUAL HYDRAULIC FLOOR MOUNT

Coxreels® Extreme Duty XTM Series

Coxreels is proud to introduce a new addition to the Extreme Duty XTM Series spring rewind lineup; The Dual Hydraulic XTM-DMP-450 Reel. Perfect for any applications where dual hydraulic lines are required such as remote hydraulic equipment or accessories including rescue tools, motors, saws, etc. Coxreels' unique single-sided, dual-bodied hydraulic swivel is unique in the industry and is featured on this reel allowing for the inlet connections to both be on the same side of the reel. The hose include on the with-hose models is a twin-line fully bonded hose for superior smooth performance and handling. This

XTM Dual Hydraulic Extreme Duty Reel is rated to 2500 PSI and combines the ultimate features into the world's most robust reel solution. As with all Coxreels spring rewind reels, the XTM Series will satisfy your application's hose management needs and is USA made with Coxreels Legendary Quality, just in a more impervious package than previously available. Brennan Industries Acquires Coterflex Industrial, Expanding Product Offerings and Market Reach

Brennan Industries, a leading manufacturer and distributor of hydraulic and fluid connector products, is pleased to announce the acquisition of Coterflex Industrial, a renowned Brazilian manufacturer of specialized industrial solutions. This strategic acquisition aligns with Brennan's commitment to enhancing its product portfolio and delivering innovative solutions to its customers.

Coterflex Industrial, known for its expertise in custom manufacturing and a diverse range of industrial applications, will bolster Brennan's capabilities in meeting the evolving needs of its clientele across various sectors, including aerospace, automotive, and energy. With this acquisition, Brennan aims to enhance operational efficiencies and expand its geographic footprint. [Read more](#)

Singer Industrial Teams Up With Fluid Tech Hydraulics

Singer Industrial has teamed up with Fluid Tech Hydraulics (FTH), a leading distributor/service provider in the hydraulic industry. FTH offers an array of specialized components and services, from hydraulic pumps and cylinders to precision machining, along with an extensive selection of industrial hoses and fittings. They also repair hydraulic components. FTH is headquartered in Sacramento, CA, and will operate within the Fluid Power Division of Singer Industrial.

The capabilities of FTH will create a greater breadth and depth of support for Singer Industrial's mutual customers in the California markets and will continue to be led by past owner Gail Sparks. The addition of FTH increases Singer Industrial's footprint to more than 120 locations with over 1,500 employees in North America. [Read more](#)
