

HSI Certification

HSI Certifications are earned by individuals to demonstrate personal achievement, expertise, and ongoing professional growth.

Start with HSI Training

- Your organization must be a NAHAD member and a NAHAD Academy subscriber.
- Complete HSI Certification training through NAHAD Academy.
- You may choose to get Fabrication certified in specific hose types, or Handbook certified in specific hose types.
- Handbook certifications require a Hose Basics and Post-Fabrication Course in addition to the specific hose handbook course; Fabrication certifications require only the specific hose fabrication course.

Earn HSI Certification

- Your organization's Training Coordinator will be sent your certificate within 3 weeks of completing the required courses.
- You will also be listed in the online NAHAD certification directory.
- Your certification is valid for three years.
- Share your personal achievement!

Maintain with Continuing Education

- During your 3-year certification cycle, complete 10 hours of eligible CE.
- Eligible CE events include NAHAD Hands-on Training; NAHAD Annual Meeting; Manufacturer Training; IDCO Online Courses; NAHAD Academy Online Courses (outside of certification courses); Skills Training or Certifications; Safety Training; UID; Sales, Management, Leadership, or Distributor Training
- CE must be earned within your certification period

Report CE and Renew Your Certification

- Submit your CE before the end of the certification date (typically December 31 of the third year) via the NAHAD online CE Submission
- Successful reporting extends certification an additional three years
- If CE is not reported within 60 days after expiration, certification may lapse and require a restart

Benefits of Certification

- **Professional Recognition** - Showcase your mastery of industry best practices and quality standards.
- **Improved Job Performance** - Certification and continuing education strengthen technical skills
- **Ongoing Industry Involvement** - Certification and CE encourages engagement with training events, networking, and manufacturer programs.
- **Career Credibility** - Certification signals commitment to professionalism to employers and clients.
