

February 2026

Participate in the 2026 Cross Industry
Compensation and Benefits Survey

**NAHAD's 2026 Cross-Industry Compensation & Benefits
Study**

In today's competitive labor market, employees are evaluating total rewards more closely than ever, including compensation, benefits, flexibility, and long term career support. NAHAD is pleased to once again partner with Industry Insights for the 2026 Cross Industry Compensation and Benefits Survey. New this year, the survey introduces incumbent based reporting, enhancing accuracy and comparability across roles, locations, and company sizes. We encourage all members to participate. For those who do, you receive confidential, company specific reports and access to robust

benchmarking tools designed to help evaluate pay competitiveness and identify workforce trends **FREE OF CHARGE**.

Your input is essential. The results will provide practical insights to help you assess your compensation and benefits programs, identify potential gaps, and make informed, data driven decisions to attract and retain top talent.

Complete 2026 Survey

Register for NAHAD's Annual Convention

Register for NAHAD's Annual Convention. The Early Bird pricing is available through March 13, so make sure to register by then to secure the lowest rate before the price increases.

NAHAD anticipates record attendance this year in Indianapolis. With a larger exhibit hall and expanded networking opportunities, the convention provides valuable access to the companies and leaders shaping the hose and hose accessory industry. Attendees will have the opportunity to engage with peers, explore the latest industry developments, and build meaningful connections, including with the next generation of industry professionals.

AI Webinar and Technology Roundtable

Engineering, Selecting, and Deploying Cooling Hoses for AI Data Centers Webinar Recording

Following the strong engagement in December's webinar, Data Center Cooling Hoses: A New Frontier in Fluid Handling, the same expert panel reconvened on February 9, to continue the discussion and expand on this rapidly developing topic.

This session took a deeper dive into the engineering, selection, and deployment of cooling hoses for AI data centers, offering practical guidance and technical insight as AI infrastructure evolves.

If you were unable to join the hundreds of industry professionals who attended, or if you would like to revisit the conversation, the February webinar on AI data centers is now available to watch.
