Recapping NAHAD's Annual Convention

Thank you to all who attended the 2026 NAHAD Annual Convention. The event welcomed an outstanding turnout, including the **largest group of first-time attendees and industry professionals**, reflecting the continued growth and momentum of the community. With more than 120 exhibitors showcasing the latest products, innovations, and services, there were ample opportunities to explore new solutions and connect with key partners across the industry. From valuable networking to insightful discussions and shared expertise, the high level of engagement made this year's event truly exceptional.

Looking ahead, the **2027 NAHAD Annual Convention will take place April 10–13 in Austin, Texas at the Fairmont Austin Hotel**. We hope to see you all there.

Successful LEAD Program

NAHAD
LEAD

Leadership Exploration
and Development

The inaugural cohort of NAHAD's LEAD Program officially kicked off at the NAHAD Convention, marking an exciting milestone for this brand-new leadership development initiative. Participants gathered for an informal meet-and-greet, providing an opportunity to connect with fellow cohort members and begin building relationships with their assigned mentors. The Monday afternoon session was dedicated to exploring leadership styles and personal development, laying the foundation for the program ahead. As a special addition to the experience, participants also took part in an exclusive session with keynote speaker Alex Weber, gaining valuable insights on leadership, resilience, and personal growth. The energy, engagement, and enthusiasm displayed by this first cohort set a strong tone for the future of the LEAD Program.

Making Cash Flow More Predictable in Industrial Distribution

Hosted by Service First Processing

June 18, 2:00 PM EST

Hose and industrial distributors operate in an environment shaped by large-ticket transactions, extended credit terms, emergency job-site fulfillment, and multi-branch operations.

While product flow is often optimized, payment flow can remain inconsistent. This session examines operational gaps between shipment, invoice release, credit approval, and payment collection, helping executive leaders improve predictability without increasing administrative overhead.
