

SEPTEMBER 2026

TOOLKIT

Now A Month of Safety

Hose Safety Awareness **Week** *is now* Hose Safety Awareness **Month**.

Same mission. **Bigger impact.**

September 2026

In recognition of the industry's ongoing commitment to hose safety and education, NAHAD has expanded Hose Safety Awareness Week into Hose Safety Awareness Month.

As a NAHAD member, your company has an important role to play in advancing hose safety. You can help make Hose Safety Awareness Month a success by sharing safety information with your employees, customers, suppliers, and professional network.

Celebrate Hose Safety Awareness Month with Us!
Dear [Insert Name],

At [Company Name] we are committed to hose safety essentials. One way we demonstrate this is to ensure we are implementing the latest in hose assembly, quality, and reliability best practices. Safe and efficient operations is of utmost importance to us. Proper hose fitting and selection is critical in preventing possible injuries caused by broken connections or other malfunctions.

So, to safeguard our staff and customers, we adhere to a comprehensive set of performance recommendations for the specification, fabrication, and design of hose assemblies Some of these include:

- Bullet one
- Bullet two
- Bullet three
- Bullet four

Join us this month as we share additional ways we are ensuring our customers and employees safety. Visit our website, follow us on social media, and look for additional emails to come.

Let's celebrate this important month together.

Sincerely,
[Insert Company Name]

Hose safety starts with the right practices.

Proper hose selection, assembly, application, inspection, and maintenance are essential to safe and reliable operations.

During Hose Safety Awareness Month, we are highlighting the importance of making hose safety part of every operation.

Follow along this September for hose safety information and resources.

#HoseSafetyAwarenessMonth #HSAM2026 #HoseSafety #NAHAD

Why does hose safety matter?

Because the right hose, properly selected, assembled, installed, inspected, and maintained, can help protect people, equipment, and operations.

This Hose Safety Awareness Month, we are encouraging our customers and industry partners to make hose safety an ongoing priority.

NAHAD Safety Commitment

Take Your Commitment to Hose Safety Further

This year, NAHAD is introducing the NAHAD Safety Commitment, giving member companies an opportunity to take their commitment to hose safety a step further.

By signing the commitment, your company publicly demonstrates its dedication to promoting safe hose practices, supporting industry best practices, and making safety an ongoing priority.

Ready to commit to safety?

NAHAD SAFETY COMMITMENT
